

## PROTECT YOUR CAMPUS WITH DISTANCE LEARNING

Don't want to put yourself or your campus at risk with all of the viruses going around? Newline X Series or IP Logitech bundles make distance learning easier than ever.

### NEWLINE + DISTANCE LEARNING

#### ***Keep teaching without worry***

No need for classes to cancel. Online and distance learning makes it easier than ever to keep students and faculty safe without sacrificing learning. Keep your students on track with their coursework from the safety and comfort of your homes.

#### ***Collaborate any way you wish***

None of Newline's displays require you to use a specific UC software. Have the freedom to use the UC software of your choice - connect with students using Zoom, Skype, Microsoft Teams, WebEx, and more! Continue to interact without limits.

#### ***Communicate clearly with students***

Newline's X Series displays come with built-in cameras and microphones that can capture you no matter where you are in the room. Along with noise-cancelling and echo reduction technology, your students will always be able to hear you and understand what is being said.

### AVAILABLE GRANTS

Don't worry about trying to find funding for distance learning initiatives. There are grants available to help alleviate costs.

#### USDA Distance Learning and Telemedicine Grant Program

- Max Award Amount: \$1,000,000
- Matching Funds: 15%

Grant funds may be used to acquire equipment, instructional programming and training for equipment.

Apply for a grant from The Distance Learning and Telemedicine program online:
